PRICE THREE CENTS

ATTEMPTED MURDER

An Unknown Person Attempts to Shoot a Priest.

Pittsburg, Pa., Oct. 11.—Intense excitement prevails among the Polish residents of the South side, over an alleged attempt to assassinate Rev. Father Mikewitz, of the Polish church at the head Fifteenth street, about 11 o'clock yesterday morning, while the priest stood before the altar. Mass had been said and the father just turned to address the congregation, when crash came a bullet through the window on the south side of the church, flattening itself against the solid wall on the opposite side. The women screamed and the men rushed out to find from where the bullet came. The priest showed great coolness. No trace of the perpetrator could be found. There has been a good deal of trouble between the different factions of the church in time past.

Death of a Prominent Southerner.

New York, Oct. 11.—Ex-Senator D. L. Yule, of Florida, died yesterday at the Clarendon hotel from heart disease. He was elected to the United States senate in 1884 and served until January 21, 1881, when, with other southern senators, he withdrew.

FREIGHT BLOCKADE.

How the Pittsburg and Fort Wayne Road is Pushed.

Pittsburg, Pa., Oct. 11.—The freight traffic to the west on the Pennsylvania, Pan-Handle, Fort Wayne and Baltimore & Ohio routes has increased within the last few days until it has caused a blockade in the yards of full loaded cars waiting to be moved. The officials state the blockade will be raised to-day.

Fast Time by Bicyclists.

INDIANAPOLIS, Oct. 9.—In the bicycle tournament to-day, N. H. Van Sicklen, of Chicago, won the twenty-mile race for the Pope cup in one hour and four and one-half minutes. The state championship ten mile race was won by S. P. Hollingsworth, of Russellville, in twenty-five minutes one and one-half seconds. S. G. Whitaker, of Chicago, beat Hollingsworth's record by making a mile in 2:43.

The Anarchists Must Die.

CHICAGO, Oct. 11.—A. R. Parsons, the convicted Chicago anarchist, took nearly six hours Saturday to conclude his protest against being hanged. When he closed, Judge Gary sentenced seven of the prisoners to suffer death on December 3, and Oscar Neebe to be imprisoned for fifteen years at Joliet.

IT IS TOO THIN.

The Republican Campaign Falsehood About the State Treasury Nailed Right Hard.

INDIANAPOLIS, Oct. 11.—The Journal, for political effect, has charged that the warrants of the state are being hawked about the streets and sold at a discount, as there is no money in the state treasury to pay them, and for this alleged reason they are demanding an investigation. Both Auditor Rice and Treasurer Cooper say that this charge is utterly false, that under the law they are not allowed to issue warrants unless there is money to pay them, and if anybody holds one of the state's warrants he can get it cashed upon presentation at the treasury. In investigating this matter to-day, a correspondent found out several interesting facts about the condition of the state's finances, and likewise, a transaction, in which the accusation made above is founded.

The state has already paid out for the construction of the three new insane hospitals at Richmond, Evansville and Logansport, the sum of \$749,759.23, which is more than \$100,000 in excess of the amount of the appropriation for this purpose thus far paid in. The money for the construction of these buildings comes from special taxation, and when all that had been paid in was exhausted, the payment went on from the general fund of the treasury, until this, also, was in danger of becoming impoverished. The contractors were anxious to finish up the work, as they had large forces employed, and they agreed with the commissioners to take vouchers for their estimates, payable at the beginning of next year, as by that time there will be sufficient money in the treasury to meet them. Such vouchers to the amount of more than \$100,000 were issued, and it is these that have been offered for sale at a discount, and not the state's warrants as was charged. They do not,

however, exceed the appropriations for the asylums for this year, and are sure to be paid when they become due. In the mean time the work on the new buildings is progressing satisfactorily, whereas, if the vouchers had not been issued, it would have stopped entirely. The institutions will cost considerably more than was expected, however.

THE STRIKE.

How the Battle of the Chicago Pork Packers Progresses.

CHICAGO, Ill., Oct. 11.—None of the pork packing establishments at the Union stock yards opened their doors this morning, and none of the 16,000 men usually employed in these departments offered to return to work on the ten hour basis. There is a tremendous crowd of idle men in and about the yards, but no disturbance. The pressure from the strikers is so great that a fear is entertained that the strike will involve all the men employed about the yards and occasion an entire cessation of work in all.

Armour is bringing men to take the strikers' places and says he can guarantee all steady work and ample protection. They are putting up cots for the imported men and have room for about 600 men. Armour says the other packing houses are making similar preparations.

About fifty-five firemen and fifty engineers employed by Armour joined the strikers. There are about 4,000 men all told, or about one-eighth of the regular force, at work in the pork department of this establishment to-day. Beef killers are at work as usual.

DISGUSTED.

The Best Men Abandon the Republican Party and Come Out Squarely for Democracy.

FRANKFORT, Ind., Oct. 9.—Hon. B. K. Higginbotham has openly declared himself a democrat and tendered his services as an orator during the remainder of the campaign. The executive committee has made the following appointments for the judges: Coffey, Tuesday, night, October 12; Kirklin, Thursday night, October 14; Seireleville, Friday night, October 15; Michigantown, Saturday night, October 16.

The judge has for the past six or eight years been in full accord with the democratic party, but lacked the nerve and courage to take the initial step. Having now fully determined on his future course, he will prove a power to the party, and his voice will be heard until the close of the polls in November.

S. A. Coyner, a life-time republican of Coffey, will accompany the judge and give his reasons for deserting the g. o. p. in this hour of sore trial and need.

A West India Hurricane.

WASHINGTON, Oct. 11.—A West India hurricane entered the Gulf of Mexico Saturday, moved in a northerly direction and is now south of Pensacola to-day.

IT IS QUEER.

Fifty Thousand Dollars Wrongfully Paid to Indians on Erroneous Vouchers.

WASHINGTON, Oct. 11.—The third auditor of the treasury, in a letter to the governor of Indiana, charges that nearly \$50,000 has been erroneously paid to citizens of that state on duplicate or altered war claims, and should be refunded.

Auditor Williams says the discrepancy amounts to \$46,123 and he wants the matter straightened up. The claims in which the errors and overcharges, or whatever else one may please to call them, were discovered, appear to have been formulated and filed by Gen. W. H. Terrell, late military secretary to the governor, and W. B. McCarthy, who were the legal representatives of the state in such matters.

INDIANAPOLIS, Oct. 11.—Terrell and McCarthy, mentioned in Auditor Williams' letter to the governor of this state, are both dead. The entire matter belongs to Oliver P. Morton's administration. Terrell was his military secretary and McCarthy auditor of state. The present auditor, Mr. Rice, says that something is probably due the state, but that vouchers were raised and other frauds perpetrated, either here or in the Washington departments, at that time.

WASHINGTON, Oct. 11.—The weather indications are as follows: Kentucky, Ohio and Indiana, fair weather, slight changes in temperature.

Hendricks, and supplemented the presentation with a brief eulogy of the life of the deceased and his labors in the Episcopal church.

NEW YORK, Oct. 11.—A dispatch from St. John, N. F., was received by Henderson Bros., agents for the Anchor line of steamers, this morning, stating that the steamer Anchoria arrived at that port at 3 o'clock this morning. The Miranda which left St. Johns yesterday in search of the vessel, missed her and the long overdue steamer had sailed to within three miles of the port when she was towed in by a harbor tug.

CENTER SHOTS.

The Monroeville "Breeze" Points Its Battery at the Republican Pretenders.

[Monroeville Breeze.]

By actual figures, Allen county's indebtedness is not so large as it is reported.

Dr. George W. Loag, the democratic nominee for the office of clerk, will undoubtedly receive the unanimous support of his party, which, if he does, will elect him by the usual democratic majority. Mr. Loag is a man of few words, but an earnest worker in behalf of his party. If elected he will do justice to the office.

When an office seeker can afford to spend \$3,500 to get there, there must be something in the wind, and tax-payers should cast their vote against that man every time. If he be successful, at the

expiration of his term of office, he will have recovered the amount and well feathered his nest, besides.

Hettler's attack upon Neizer has only resulted in making votes for him. Thousands of republicans will join the democrats and assist in giving Neizer the largest vote of any man on the ticket.

Hettler will be compelled to prove his assertions against Mr. Argo, in his speech, at the Academy of Music, last Saturday night. As for Neizer, people will discover at the expiration of his term of office, that Allen county will be entirely out of debt.

Tried to Break Jail.

HUNTINGTON, Ind., Oct. 11.—Five prisoners in the county jail made a nearly successful effort to escape last evening. The sheriff's wife happened to pass in the rear of the building and heard a brick fall. Investigation showed that they had cut a hole through the stone slab and the brick wall with a cold-chisel. A few minutes more would have made them free.

HUNTINGTON, Ind., Oct. 11.—Frank Buzzard, aged 14 years, was probably fatally injured by the falling of a harpoon hay fork upon him yesterday. The rope broke and the fork fell thirty feet, fracturing the boy's skull and tearing it open.

THE ORIGINAL LINE.

The Bondholders Protest Against the Work of the Receivers and Trust Company.

In the federal court yesterday morning Thomas B. Adkins and H. D. Metcalf on behalf of themselves and other holders of the convertible bonds of the Toledo, Wabash and Western railroad, filed a formal objection to the proposed decree in the case of the Central Trust company against the Wabash, St. Louis & Wabash railroad, whereby the receivers are directed to pay such interest on prior bonds as the purchasers may direct and also that the purchasers may become the owners of claims against the property by purchase, and therefore be subrogated to the rights of the original owners of said claims. The objection is made for the following reasons: (1) Because the order is irregular and improper, and makes the receivers mere agents of the purchasers and authorizes an illegal and inequitable discrimination between the bond holders equally entitled to common security and the earnings thereof, and (2) because the proposed order is expressly contrary to terms of the purchase, and the order of the court confirming is intended and designed to cloud the liens of the objectors and other bond holders holding older mortgages.

Frank Morow, of Fort Wayne, is at Indianapolis.

Miss Ida M. Kellogg, announces that she has passed the examination at the American Opera school, in New York city.

Carl Bond, a hoop maker, was run down by a Nickel Plate train, near Payne and instantly killed.

Mr. Barney Neizer, democratic nominee for auditor, has so far recovered as to be out to-day. Mr. Neizer has hosts of friends to greet him everywhere.

The democrats held rousing meetings all over old Allen county Saturday night. The democrats of the county are solid as a rock for the ticket.

Superintendent and Mrs. P. S. O'Rourke leave for New York city this evening. Mr. O'Rourke will attend a meeting of railroad superintendents, of which association he is an ex-president.

Superintendent of Motive Power and Machinery J. B. Barnes, of the Wabash, is in the city. He inspected the shops this morning. All of the boys gave their old leader a hearty greeting.

Charles Dayton and Mary Weaver were indulging in a little love affair in the office near the Stapleford stables, last night, when Capt. Diehl disturbed them. It cost 'em \$17 each and they paid up nicely.

A Nickel Plate freight train ran over a horse yesterday morning, near the soap factory, in the east end, and ground him so fine that the factory people will not need to cut him up in order to render the fat out of him. He was the property of Julius Kegelmann.

Jonny Maxwell, the "lightning cutter" at the overall factory, resigned his place on Saturday, and thinks of locating in Chicago. As he is one of the best cutters in the west he will have no trouble in getting a good job.

Ex-Councilman D. B. Strophe, of this city, died suddenly at the residence of his son in Kansas City this morning. Mr. Strophe was en route home from a trip to the Pacific coast and this news will be sad to his many friends here. His remains will be shipped here for burial.

Joe Hartman and wife went three miles in the country yesterday in a buggy. They alighted and unhitched the horse and tied it to a tree, with the intention of gathering some nuts. The horse broke loose and ran home. Joe is lame to-day from his tramp after the pony.

Dr. A. J. Boswell has fitted up a fine suit of rooms over the drug store of George H. Loesch, on Wayne street, corner of Barr, where he will administer to the ills that flesh is heir to. The doctor is a courteous gentleman of fine medical acquirements, and a valuable addition to the medical fraternity of Fort Wayne.

An item is going the rounds of the press, criticising Colonel Robertson, of this city, for making remarks about the beer drinking Germans of Allen county and the prohibitionists of Wayne county. Colonel Robertson never made the remarks and twelve of the most prominent citizens of Portland, who heard the speech, so state in this morning's Indianapolis Journal.

The fine selection of paintings, studies, etc., recently placed in the St. Augustine academy studio has attracted a large class of ladies to take instructions from the able teacher in charge. The paintings on tables and easels indicate that many of those taking lessons have remarkable talent. A visit to this studio will well repay all who appreciate good painting.

Ex-Gov. A. G. Porter has canceled his engagement to speak here on the ground of sickness. Inasmuch as Mr. Porter spoke up to the time of the announcement, and is still booked by republicans elsewhere, the plea of "sickness" can be regarded as a "cheat-trick," as the urchin would say. Mr. Porter treated Fort Wayne shabbily in the state insane asylum matter, and the fact that our citizens have nothing but scorn for him hastened his "illness."

DEMOCRATIC WATCHWORD—"Tell the truth."

A vote for Senator Harrison is a vote for monopoly.

REPUBLICAN pretense is the laughing stock of the county.

THIS is to be a democratic election from corner to corner to Lieutenant governor.

A VOTE for Senator Harrison is a vote against the interests of organized labor.

ANY man who denies or betrays his political party is unworthy a public trust.

EVERY man on the democratic county ticket will be elected by a big, handsome majority.

THE democrats face the people with the truth; the republicans offer deceit and bumbag.

MUD-SLINGING will not defeat a single democratic candidate or convince an honest man.

EVERY vote against a democratic congressman is a vote to repudiate the election of Grover Cleveland.

THE democratic party is on trial. Vote and work to sustain it for its merits the suffrage of the honest people.

A TRAITOR to his party is as much to be hated and dreaded as a traitor to his country, be he democrat or republican.

THE republicans will need the mud they are throwing out to hide the political carcasses of their candidates in November.

AS GOES INDIANA in '86 so she goes in '88. Who will vote to entrench the republican enemy now in view of the approaching political battle two years hence?

THREE weeks from to-morrow there will be a republican burial. Friends of the prospective deceased are asked to arrange floral tributes in advance so as to expedite the ceremony.

WHAT a pleasant greeting for President Cleveland it would be to send a republican congressman to Washington from the Twelfth democratic district. Hurrah for consistency.

No democrat who voted for Mr. Cleveland and raised his hat to the successful ticket of '84, will now vote to annul that victory and add insult and injury to the democratic administration.

Look the democratic ticket from end to end and every man on it is capable, worthy and honorable. There is no room for improvement and no reason to lag in the battle for right and triumph over abuse and pretense.

So UNPOPULAR is Ben Harrison at home that the republican legislative candidates in Marion county are promising, if elected, they will not vote for him for senator. There is not a democrat in Indiana that wants Harrison returned to the United States senate. He abuses President Cleveland in his speeches and has always bitterly opposed democ-

THE SENTINEL congratulates the Courier-Journal and the democrats of Louisville in their victory over democratic-republican mongers, in the defeat of Congressman Willis for renomination. Willis was opposed by Hon. Asher Caruth, and the latter received something like 1,700 majority at the primary election Saturday. The fight for the nomination between these two candidates has been a very bitter one. Caruth was the candidate on the issue raised by Willis' recommendation of Mrs. Thompson, who had held the office under two previous republican administrations, for reappointment as postmistress. Acting on the representations of Mr. Willis, that a majority of the democrats of Louisville desired the appointment, President Cleveland reappointed Mrs. Thompson.

THOMAS WILKINSON lives at Adrian, Mich. He is a native of Yorkshire, Eng., about 45 years of age, 5 feet 10 inches in height, and weighs in the neighborhood of 150 pounds. He has resided in Adrian for the past 20 years, and is a boss plasterer. About six years ago Mr. Wilkinson shaved off an ordinary growth of whiskers, which he had kept closely trimmed for several years previous. After allowing his beard to grow again for some time he noticed the fact that an unusual growth took place in the course of a month, and, being naturally curious as to the length his beard might attain, he allowed it to continue on its mad career. An inch a month was about the average velocity with which it proceeded toward his feet. When it became so long as to seriously discommode him he had a bag made in which he inserted the whiskers braided up, and carried inside his shirt. His mustache in the meantime grew so luxuriantly that he could tie it at the back of his head. The mustache he now trims down to some extent. The beard still continues growing, notwithstanding the fact that it already reaches the ground.

DEMOCRACY AND LABOR.

Equal and exact justice to all men.—Thomas Jefferson.

Exclusive privileges to none.—Andrew Jackson.

Under our form of government the value of labor as an element of national prosperity should be regarded as especially entitled to legislative care.—Grover Cleveland.

Ammonia in Baking Powders.

Scientific American.

Among the recent discoveries in science and chemistry, none is more important than the use to which common ammonia can be properly put as a leavening agent and which indicate that this familiar salt is hereafter to perform an active part in the preparation of our daily food.

The carbonate of ammonia is an exceedingly volatile substance. Place a small portion of it upon a knife and hold over a flame, and it will almost immediately be entirely developed into gas and pass off into the air. The gas thus formed is a simple composition of nitrogen and hydrogen. No residue is left from the ammonia. This gives it its superiority as a leavening power over soda and cream of tartar used alone, and has induced its use as a supplement to these articles. A small quantity of ammonia in the dough is effective in producing bread that will be lighter, sweeter and more wholesome than that risen by any other leavening agent. When it is acted upon by the heat of baking the leavening gas that raises the dough is liberated. In this act it uses itself up, as it were; the ammonia is entirely different, leaving no trace or residuum whatever. The light, fluffy, flaky appearance, so desirable in biscuits, etc., and so sought after by professional cooks, is said to be imparted to them by the use of this agent.

The bakers and baking powder manufacturers producing the finest goods have been quick to avail themselves of this useful discovery, and the handsomest and best bread and cake are now largely risen by the aid of ammonia, combined of course with other leavening.

Ammonia is one of the best known products of the laboratory. If, as seems to be justly claimed for it, the application of its properties to the purposes of cooking results in giving us lighter and more wholesome bread, biscuit and cake, it will prove a boon to dyspeptic humanity, and will speedily force itself into general use in the new field to which science has assigned it.

A PLAIN STATEMENT.

A Concise and Clear Statement of Allen County's Finances.

IS THIS THE REFORM THEY TALK ABOUT!

[Proceedings of the Republican County Convention taken Verbatim from the GAZETTE.]

Mr. Baltes was declared the nominee and made a short speech:

"MR. CHAIRMAN AND GENTLEMEN—I have not been seeking this office, but as you have been so liberal as to give me a majority on the first ballot, I am very thankful, and shall work again as I did four years ago, when I paid \$1,200 and didn't get the office, even if it costs me another \$1,200 to get into this court house. All I ask is that these delegates do the fair thing, and at the fall election be at the polls and vote the whole ticket through, from top to bottom, (a voice, "We'll do it!") and there is no doubt but we'll carry Allen county. [Cheers.]"

"Zozo," which appears at the Temple to-night and to-morrow night, is drawing crowded houses everywhere and well deserves it, for it is a spectacular play quite out of the usual style, introducing new ideas, novel features and grand effects. The sanitary laws regarding the suppression of scarlet fever, that is spreading to an alarming extent in our city, now ought to be vigorously enforced. The necessity of this may be shown by the family of Ex-Councilman Frank Gocke. His daughter, Celestia, about 12 years old, died last week of inflammation of the bowels subsequent to scarlet fever. His baby and his eight-year-old boy are recovering and his six-year-old twin children are dangerously sick now with scarlet fever. The thirteen-year-old daughter of Policeman Humbrecht who had attended the funeral of Ex-Councilman Gocke's child last week, is now sick with scarlet fever.

A prominent figure on the avenue these pleasant autumnal days, says a Washington correspondent, is ex-Secretary Hugh McCulloch, formerly of the treasury department, who, despite advancing years, takes great pride in driving himself a pair of spirited bays. Besides a town-house on King place, about the Arlington, Mr. McCulloch has a country seat north of Washington, where he usually spends the summer with his family. His clean-shaven face and straight crown high hat seem the same as in the days of Johnson's administration, when the treasury portfolio belonged to him, and by a singular coincidence the closing days of Arthur's regime found Mr. McCulloch occupying the same post that he did under a previous president whose predecessor had been assassinated. Every morning this famous financial authority rises at an early hour at his country seat, and after breakfast he drives into the city to attend to private and personal matters requiring his attention.

ATTEMPTED MURDER.

An Unknown Person Attempts to Shoot a Priest.

Pittsburg, Pa., Oct. 11.—Intense excitement prevails among the Polish residents of the South side, over an alleged attempt to assassinate Rev. Father Niekewitz, of the Polish church at the head Fifteenth street, about 11 o'clock yesterday morning, while the priest stood before the altar. Miss had been said and the father just turned to address the congregation, when crash came a bullet through the window on the south side of the church, flattening itself against the solid wall on the opposite side. The women screamed and the men rushed out to find from where the bullet came. The priest showed great coolness. No trace of the perpetrator could be found. There has been a good deal of trouble between the different factions of the church in time past.

Death of a Prominent Southerner.

New York, Oct. 11.—Ex-Senator D. L. Yale, of Florida, died yesterday at the Orléans hotel from heart disease. He was elected to the United States senate in 1884 and served until January 21, 1885, when, with other southern senators, he withdrew.

Pittsburg, Pa., Oct. 11.—The freight traffic to the west on the Pennsylvania, Pan-Handle, Fort Wayne and Baltimore & Ohio routes has increased within the last few days until it has caused a blockade in the yards of full loaded cars waiting to be moved. The officials state the blockade will be raised to-day.

Fast Time by Hycleists.

Indianapolis, Oct. 9.—In the bicycle tournament to-day, N. H. Van Sicken, of Chicago, won the twenty-mile race for the Pope cup in one hour and four and one-half minutes. The state championship ten mile race was won by S. P. Hollingsworth, of Evansville, in twenty-five minutes one and one-half seconds. S. G. Whitaker, of Chicago, beat Hollingsworth's record by making a mile in 2:48.

The Anarchists Must Die.

Chicago, Oct. 11.—A. P. Parsons, the convicted Chicago anarchist, took nearly six hours Saturday to conclude his protest against being hanged. When his closed, Judge Gary sentenced seven of the prisoners to suffer death on December 3, and Oscar Neebe to be imprisoned for fifteen years at Joliet.

IT IS TOO THIN.

The Republican Campaign Falsehood About the State Treasury Nailed Right Hard.

Indianapolis, Oct. 11.—The Journal, for political effect, has charged that the warrants of the state are being hawked about the streets and sold at a discount, as there is no money in the state treasury to pay them, and for this alleged reason they are demanding an investigation. Both Auditor Rice and Treasurer Cooper say that this charge is utterly false, that under the law they are not allowed to issue warrants unless there is money to pay them, and if anybody holds one of the state's warrants he can get it cashed upon presentation at the treasury. In investigating this matter to-day, a correspondent found out several interesting facts about the condition of the state's finances, and likewise, a transaction, in which the accusation made above is founded.

The state has already paid out for the construction of the three new insane hospitals at Richmond, Evansville and Logansport, the sum of \$749,750.23, which is more than \$100,000 in excess of the amount of the appropriation for this purpose thus far paid in. The money for the construction of these buildings comes from special taxation, and when all that had been paid in was exhausted, the payment went on from the general fund of the treasury, until this, also, was in danger of becoming impoverished. The contractors were anxious to finish up the work, as they had large forces employed, and they agreed with the commissioners to take vouchers for their estimate, payable at the beginning of next year, as by that time there will be sufficient money in the treasury to meet them. Such vouchers to the amount of more than \$100,000 were issued, and it is these that have been offered for sale at a discount, and not the state's warrants as was charged. They do not,

however, exceed the appropriations for the asylums for this year, and are sure to be paid when they become due. In the mean time the work on the new buildings is progressing satisfactorily, whereas, if the vouchers had not been issued, it would have stopped entirely. The institutions will cost considerably more than was expected, however.

THE STRIKE.

How the Battle of the Chicago Park Packers Progresses.

Chicago, Ill., Oct. 11. None of the pork packing establishments at the Union stock yards opened their doors this morning, and none of the 16,000 men usually employed in these departments offered to return to work on the ten hour basis. There is a tremendous crowd of idle men in and about the yards, but no disturbance. The pressure from the strikers is so great that a fear is entertained that the strike will involve all the men employed about the yards and occasion an entire cessation of work in all.

Armour is bringing men to take the strikers' places and says he can guarantee all steady work and ample protection. They are putting up cots for the imported men and have room for about 600 men. Armour says the other packing houses are making similar preparations.

About fifty-five firemen and fifty engine-men employed by Armour joined the strikers. There are about 4,000 men all told, or about one-eighth of the regular force, at work in the pork department of this establishment to-day. Beef killers are at work as usual.

DISGUSTED.

The Best Men Abandon the Republican Party and Come Out Squarely for Democracy.

Frankfort, Ind., Oct. 9.—Hon. B. K. Higginbotham has openly declared himself a democrat and tendered his services as an orator during the remainder of the campaign. The executive committee has made the following appointments for the judges: Coffey, Thursday night, October 12; Kirklin, Thursday night, October 12; Kirklin, Friday night, October 15; Michigan-town, Saturday night, October 16.

The judge has for the past six or eight years been in full accord with the democratic party, but looked the nerve and courage to take the initial step. Having now fully determined on his future course, he will prove a power to the party, and his vote will be heard until the close of the poll in November.

S. A. Goyner, a life-time republican of Calfax, will accompany the judge and give his reasons for deserting the G. O. P. in this hour of more trial and need.

A West India Hurricane.

Washington, Oct. 11.—A West India hurricane entered the Gulf of Mexico Saturday, moved in northerly direction and is now west of Pensacola to-day.

IT IS QUEER.

Fifty Thousand Dollars Wrongfully Paid to Indians on Excessive Vouchers.

Washington, Oct. 11.—The third auditor of the treasury, in a letter to the governor of Indiana, charges that nearly \$50,000 has been erroneously paid to Indians of that state on duplicate or altered war claims, and should be refunded. Auditor Williams says the discrepancy amounts to \$16,123 and he wants the matter straightened up. The claims in which the errors and overcharges, on which also one may please to call them, were discovered, appear to have been formulated and filed by Gen. W. H. H. Terrell, late military secretary to the governor, and W. B. McCarthy, who were the legal representatives of the state in such matters.

Indianapolis, Oct. 11.—Terrell and McCarthy, mentioned in Auditor Williams' letter to the governor of this state, are both dead. The entire matter belongs to Oliver P. Morton's administration. Terrell was his military secretary and McCarthy auditor of state. The present auditor, Mr. Rice, says that something is probably in the state, but that vouchers were raised and other frauds perpetrated, either here or in the Washington departments, at that time.

Washington, Oct. 11.—The weather indications are as follows: Kentucky, Ohio and Indiana, fair weather, slight changes in temperature,

Hendricks, and supplemented the presentation with a brief eulogy of the life of the deceased and his labors in the Episcopal church.

The Miranda which left St. John yesterday in search of the vessel, missed her and the long overdue steamer had sailed to within three miles of the port when she was towed in by a harbor tug.

CENTER SHOTS.

The Monroeville "Three" Points Its Battery at the Republican Preliminary.

[Monroeville Review.] By actual figures, Allen county's indebtedness is not so large as it is reported.

Dr. George W. Long, the democratic nominee for the office of clerk, will undoubtedly receive the unanimous support of his party, which, if he does, will elect him by the usual democratic majority. Mr. Long is a man of few words, but an earnest worker in behalf of his party. If elected he will do justice to the office.

When an office seeker can afford to spend \$3,500 to get there, there must be something in the wind, and tax-payers should watch their vote against that man every time. If he is successful, at the

expiration of his term of office, he will have recovered the amount and well feathered his nest, besides.

Hettler's attack upon Neizer has only resulted in making votes for him. Thousands of republicans will join the democrats and assist in giving Neizer the largest vote of any man on the ticket.

Hettler will be compelled to prove his assertions against Mr. Argo, in his speech, at the Academy of Music, last Saturday night. As for Neizer, people will discover at the expiration of his term of office, that Allen county will be entirely out of debt.

Tried to Break Jail.

The sheriff's wife happened to pass in the rear of the building and heard a brick fall. Investigation showed that they had cut a hole through the stone wall and the brick wall with a cold-chisel. A few minutes more would have made them free.

THE ORIGINAL LINE.

The Bondholders Protest Against the Work of the Receivers and Trust Company.

In the federal court yesterday morning Thomas B. Atkins and H. D. Metcalf on behalf of themselves and other holders of the convertible bonds of the Toledo, Mahan and Western railroad, filed a formal objection to the proposed decree in the case of the Central Trust company against the Washburn, St. Louis & Washburn railroad, whereby the receivers are directed to pay such interest on prior bonds as the purchasers may direct and also that the purchasers may become the owners of claims against the property by purchase, and therefore has subrogated to the rights of the original owners of said claims. The objection is made for the following reasons: (1) Because the order is irregular and improper, and makes the receivers mere agents of the purchasers and authorizes an illegal and inequitable discrimination between the bond holders equally entitled to common security and the earnings thereof, and (2) because the proposed order is expressly contrary to terms of the purchase, and the order of the court confirming is intended and designed to elude the laws of the objectives and other bond holders holding older mortgages.

A Nickel Plate freight train ran over a horse yesterday morning, near the soap factory, in the east end, and ground him so fine that the factory people will not need to cut him up in order to render the fat out of him. He was the property of Julius Kegelmann.

Joey Maxwell, the "lightning out" at the overall factory, resigned his place on Saturday, and thinks of locating in Chicago. As he is one of the best cutters in the west he will have no trouble in getting a good job.

Ex-Congressman D. B. Stroppe, of this city, died suddenly at the residence of his son in Kansas City this morning. Mr. Stroppe was en route home from a trip to the Pacific coast and the news will be sad to his many friends here. His remains will be shipped here for burial.

Anthem is going the rounds of the press, criticizing Colonel Robertson, of this city, for making remarks about the beer drinking Germans of Allen county. Colonel Robertson never made the remarks and twice of the most prominent citizens of Portland, who heard the speech, to state in this morning's Indianapolis Journal.

The fine collection of paintings, studies, etc., recently placed in the St. Augustine academy studio is attracting a large class of ladies to take instructions from the able teacher in charge. The paintings on tables and easels indicate that many of these taking lessons have remarkable talent. A visit in this studio will well repay all who appreciate good painting.

Ex-Gov. A. G. Porter has caused his engagement to speak here on the ground of sickness. Inasmuch as Mr. Porter spoke up to the time of the announcement, and is still looked by republicans elsewhere, the plea of "sickness" can be regarded as a "cheatman," as the union would say. Mr. Porter treated Fort Wayne liberally in the state income system matter, and the fact that our citizens have nothing but scorn for his husband's "illness."

A PLAIN STATEMENT.

A Concise and Clear Statement of Allen County's Finances.

Owing to the misrepresentations it not absolute falsehoods of the so called People's Convention managers, concerning the financial condition of Allen County, Chairman McCulloch, of the democratic county committee, addressed a letter to Treasurer John Dalman, requesting an accurate statement of the county's affairs at the close of business, September 30, 1886. Treasurer Dalman's reply is given in full, and explodes most effectively the statements made by those who would be belied by the people's, all republican movement.

John C. McCulloch:

In compliance with your request to furnish a statement to the public, of the condition of the treasury of Allen County, I hereby enclose such statement as shown by the books in my office at the close of business September 30, 1886:

Base Burners

The Garland in five different styles makes the handsome and most complete line of Coal Heating Stoves ever displayed. This stove has made a reputation for itself, and there are more of them being made and sold than any other stove which has been upon the market. The same Grates and Fire Poles are used through the entire line from the smallest to the largest Stove, which is a great advantage to the purchaser, and if you select a stove for \$20 you have just as good an article and as many conveniences as one for \$40. The difference exists in style and finish. Everyone is desirous to get a good article at the lowest possible price, and with the Garland you can make no mistake.
